

Rental Solutions Guide

PROTRUCK

VERSION 2.0

 **HercRentals**[®]

Call 888-777-2700 for rates and reservations
[HercRentals.com](https://www.HercRentals.com)

We equip our customers and communities to build a brighter future.

Herc Rentals® is one of the leading equipment rental suppliers with approximately 275 company-operated locations, principally in North America. With more than 50 years of experience, Herc Rentals is a full-line equipment rental supplier in key markets, including commercial and residential construction, industrial and manufacturing, civil infrastructure, automotive, government and municipalities, energy, remediation, emergency response, facilities, entertainment and agriculture, as well as refineries and petrochemicals. The equipment rental business is supported by ProSolutions® (our industry-specific solutions-based services), and our ProContractor professional grade tools, commercial vehicles, and pump, power and climate control product offerings, all of which are aimed at helping customers work more efficiently, effectively and safely. For more information visit [HercRentals.com](https://www.HercRentals.com).

SERVICES AND INFORMATION

Safety First

Safe operation of our rental equipment is a top priority. SAFETY FIRST. SAFETY ALWAYS.

We offer Equipment Safe Operation Training with top-notch instructors for many of the equipment categories we rent.

All courses include hands-on practical training and evaluation. Upon successful course completion, you'll be issued a wallet card and certificate for the following operator certification courses:

- Aerial (Scissor, Boom, Manually Propelled MEWP)
- Forklift Class I, IV, V
- Variable Reach & Straight Mast Forklift Class VII

Training is available at your local branch or we can come to your job site.

Rental Terms

Herc Rentals provides daily, weekly, monthly and long-term rentals. Acceptable forms of payment are checks and major credit cards, or if you're a frequent customer, we invite you to open a commercial account with us.

Please note: two forms of identification are required from all customers who do not have a commercial account, preferably a valid driver's license and a major credit card.

For your convenience, visit [HercRentals.com/us/credit](https://www.herc.com/us/credit) to download, or complete our online credit application.

Transportation Services

Herc Rentals has one of the largest equipment delivery fleets in North America. Utilizing our special delivery fleet, we ensure your equipment arrives safely and on time.

Rental Protection Plan (RPP)

Herc Rentals offers you peace of mind when RPP is accepted at the start of the rental. This limits your out-of-pocket costs when accidental damages or theft occur on the jobsite. Have a Certificate of Insurance (COI)? RPP can bridge the gap in your insurance when the damage isn't costly enough to submit a claim, but is more than your deductible. Herc Rentals' RPP provides you a true worry-free rental experience.

Refueling and Cleaning Services

All equipment is delivered clean and with a full tank of fuel, and if returned in the same condition, no charges apply. For your convenience upon return, we offer cleaning and refueling services.

Refueling

Customer must refuel to starting level prior to return; or, refuel upon return. Fees will be based on gallons used. Refueling rates include costs for fuel tanks, maintenance, and labor.

Cleaning

Equipment must be cleaned prior to return; if not returned clean, fees will be assessed to bring equipment to rental-ready condition. Cleaning rates include costs for labor and materials.

Preventative Maintenance Services

To maintain the highest level of operating performance of our fleet of generators, pumps, carry deck cranes and similar equipment, Herc Rentals performs preventative maintenance as recommended by the manufacturer. In addition, Herc Rentals complies with all inspection requirements and applies a Preventative Maintenance (PM) charge associated with performing the maintenance and service.

The PM charge is a per hour charge that is applied to every hour the equipment is operating or running while on rent. The PM charge is between \$1 - \$4 depending on the type and size of the equipment and the number of hours which is determined by the meter machine installed on the equipment. PM charges are billed monthly based on 160 hours of use. At time of final invoice, the PM charge for the time on rent will be adjusted up or down to reflect actual hours used. Inspection fees may apply separately or as part of the PM charge. The PM charge is not a tax, or a government mandated charge and Herc Rentals may change it from time to time in its discretion.

SAFETY TRAINING

At Herc Rentals, we have the equipment safety training where and when you need it. We have a wide range of high quality operator safety training classes. Our classroom and hands-on training sessions help meet your training requirements while preparing each operator to get the job done right.

MEWP / Forklift Familiarization Upon Delivery

Upon delivery, the driver shall complete the following with the person receiving the mobile elevating work platform/ forklift:

- Identify the weather resistant compartment (for manual storage)
- Confirm that the manuals, as specified by the manufacturer, are on the MEWP/Forklift.
- Review control functions with the operator or person designated by the customer
- Review safety devices specific to the model MEWP/ Forklift being delivered

General Training

Our General Training format includes:

- Formal instruction (e.g., lecture, discussion, written material and manufacturer's training material)
- Practical training (demonstrations and exercises performed by the trainee)
- Evaluation of the operator's performance in the workplace (in collaboration with the customer)

In our courses we review

- Equipment-related topics
- Workplace-related topics
- Plant/Site specific rules

Difference Between General Training + Familiarization

GENERAL TRAINING	FAMILIARIZATION
Classroom/Formal Training	Hands-On Instruction only
Hands-On Evaluation	Time 10-45 minutes

Familiarization Does Not Satisfy Requirements for Certification

Herc Rentals can deliver Equipment Safe Operation Training to our customers using our Qualified Instructors for the following equipment we rent:

Powered Industrial Trucks (Forklifts) as required by OSHA 1910.178 and 1926.602:

- Internal Combustion Engine Trucks (solid/cushion tires) (Class IV)
- Internal Combustion Engine Trucks (pneumatic tires) (Class V)
- Rough Terrain Forklift Trucks (straight/vertical mast and variable/extended reach) (telescopic) (Class VII)
- Electric Motor Rider Trucks (Class I)
- Electric Motor Narrow Aisle Trucks (Class II)
- Electric Motor Hand Trucks or Hand/Rider Trucks (Class III)

Mobile Elevating Work Platforms (formerly Aerial Work Platform) covered by ANSI/SIA Standards:

- Vehicle Mounted Towable Boom Lift
- Manually Propelled Elevating Platform
- Boom Supported Elevating Work Platform
- Self-Propelled Elevating Work Platform

Other Equipment Safe Operator Training

- Courses Offered
- Skid Steer
- Backhoe
- Excavator
- Atrium Boom Lift

Train the Trainer Courses

- Mobile Elevating Work Platform (formerly Aerial Work Platform)
- Powered Industrial Trucks (Forklifts)

Silica Dust Training

- Silica Dust
- Personal protective equipment requirements

BENEFITS OF RENTING

Assistance from experienced professionals:

Renting not only helps reduce costs, it also provides access to expert knowledge and training. It allows customers to take advantage of professionals who will:

- We handle all of the essentials and more, including transportation, training, service, and setup.
- Access and secure the right equipment.
- Propose specialized equipment applications, such as aerial, pump & power, trucks, earthmoving and more.

Renting allows the customer to take on a wide variety of jobs and projects without the worry of necessary capital required to purchase.

- Seasonal and large jobs require specialized equipment that can be obtained by renting.
- Renting allows for equipment to be available 24-7.

ENVIRONMENTAL MANAGEMENT POLICY

Herc Rentals Inc. is committed to minimizing the impact of operations on the environment by implementing programs that incorporate sound environmental policy and sustainability practices. We will operate in accordance with all relevant local, state, and federal regulations and will strive to use pollution prevention and best management practices throughout our branches. Our corporate operations will provide the guidance and resources to our operations as regulation changes or conditions are found that need to be addressed. The support and guidance to the Policy can be found in the Environmental Procedures.

Herc Rentals is committed to:

- Handle, store, and dispose of substances that are defined as hazardous material in compliance with local, state, and federal regulations.
- Reduce, reuse, and recycle our waste products when applicable.
 - Company goal to reduce intensity of non-hazardous landfilled waste by 25% from 2019 baseline by 2030.
 - Continue to monitor hazardous waste activity to

New Equipment

Herc Rentals makes significant annual investments in the newest, most advanced equipment on the market.

Other Benefits

- Environmentally Friendly – “Clean & Green”
- Because rental equipment is newer, renting instead of buying ensures that customers have access to the most fuel-efficient and emission controlled equipment on the market
- All rental stores in California with certain types of equipment are required to be in compliance with CARB regulations
- These regulations can be implemented in other parts of the U.S.

- ensure recycling and incineration are utilized over landfill disposals.
- Minimize water consumption and ensure safe treatment within our branches by incorporating innovative design of wastewater treatment systems.
- Minimize energy consumption by employing energy reducing initiatives.
 - Company goal to reduce Scope 1 and Scope 2 greenhouse gas emissions intensity by 25% from our 2019 baseline by 2030.
 - Update lighting and HVAC with lower energy consuming sources when applicable or expired.
 - Negotiate utility sources for most renewable source available when applicable, which includes solar power generation at Herc facilities when feasible.
- Conduct regular training for employees working with petroleum storage tanks.
- Develop and maintain appropriate emergency and spill response programs.
- Reduce environmental impact by utilizing low impact products where possible.
- Monitor the environmental impact of our business practices and review our progress on a continual basis.
- Promote environmental stewardship and best management practices to our customers, vendors, and employees.
- Continuously improve our Environmental Management System.

The future of the equipment rental industry is here.

ProControlTM NextGen

Fleet Management

Reduce downtime and eliminate redundancy with real-time actionable data from ProControl NextGen.

- Utilization

MEDICAL EXAMINER'S CERTIFICATE	
I certify that I am qualified, in accordance with the Federal Motor Carrier Safety Regulations (49 CFR 391.41-391.49) and with knowledge of the driving duties, to find this person to qualified, and, if applicable, only when:	
<input type="checkbox"/> holding a current license	<input type="checkbox"/> driving a vehicle exempt from the FMVSS (49 CFR 567.40)
<input type="checkbox"/> wearing hearing aid	<input type="checkbox"/> accompanied by a valid Performance Evaluation Certificate (PEC)
<input type="checkbox"/> accompanied by a _____ who is a physician	<input type="checkbox"/> qualified by operation of 49 CFR 391.41
The information I have provided regarding this physical examination is true and complete. A complete explanation form with any attachments embodies my findings completely and correctly, and is on file in my office.	
SIGNATURE OF MEDICAL EXAMINER	TELEPHONE _____ STATE _____
MEDICAL EXAMINER'S NAME (PRINT)	<input type="checkbox"/> MD <input type="checkbox"/> Therapist <input type="checkbox"/> DO <input type="checkbox"/> Licensed Practitioner Name <input type="checkbox"/> Phys-Chiropractor <input type="checkbox"/> Other Practitioner
MEDICAL EXAMINER'S LICENSE OR CERTIFICATE NO./ISSUING STATE	NATIONAL IDENTIFY NO. _____
SIGNATURE OF DRIVER	INTRASTATE ONLY <input type="checkbox"/> YES <input type="checkbox"/> NO CDL DRIVER'S LICENSE NO. _____ STATE _____
ADDRESS OF DRIVER	<input type="checkbox"/> YES <input type="checkbox"/> NO
MEDICAL CERTIFICATION EXPIRATION DATE	

Medical Examiner's Certificate (ME Certificate)

All drivers of commercial motor vehicles in interstate commerce with a gross vehicle weight rating (vehicle only) or gross combination weight rating (vehicle plus trailer) of 10,001 pounds or more are required to obtain and maintain a valid Medical Examiner's Certificate (ME Certificate)

Commercial Driver's License (CDL)

CLASS A

Any combination of vehicles with a GVWR of 26,001 or more pounds provided the GVWR of the vehicle(s) being towed is in excess of 10,000 pounds.

GVWR/GCWR of at least

26,001 LB

TOWING MORE THAN

10,000 LB

CLASS B

Any single vehicle with a GVWR of 26,001 or more pounds, or any such vehicle towing a vehicle not in excess of 10,000 pounds GVWR.

GVWR/GCWR of at least

26,001 LB

TOWING LESS THAN

10,000 LB

CLASS C

Any single vehicle, or combination of vehicles, that does not meet the definition of Class A or Class B, but is either designed to transport 16 or more passengers, including the driver, or is placarded for hazardous materials.

License Endorsements

In addition to needing a CDL, some drivers may be required to have additional endorsements that allow them to operate specialized vehicles and carry a variety of cargo.

H - Hazardous Materials - Required in order to drive any commercial vehicle which transports hazardous materials and is placarded under state or federal regulations.

N - Tank Vehicles - A tanker endorsement is required when hauling a load with aggregate bulk packages of 119 gallons, totaling 1,000 gallons or more.

P - Passenger Transport (16 or more passengers)

X - Combination of Tank Vehicle and Hazardous Materials

License Restrictions

CDL licenses can be restricted in the following ways:

L Restriction - Air Brakes: Drivers are restricted from operating a commercial vehicle with air brakes. This restriction is issued when a driver either fails the air brake component of the general knowledge test or performs the road skills test in a vehicle not equipped with air brakes.

E Restriction - The driver may only operate a commercial vehicle with an automatic transmission.

O Restriction - The driver is restricted from operating a tractor trailer with a fifth-wheel connection if a unit with a pintle hook, or other non-fifth wheel connection is used (such as a goose neck, or ball and chain hook up) during the road skills test.

We Have a Truck for That

Herc Rentals is the only source you will need for a wide variety of quality trucks and trailers ready for rent. Choose from various cab configurations, capacities, bed lengths, and tow packages.
